DETAILED ACTION

1. This Office action is in response to Applicant's amendment filed March 23, 2005. Applicant has amended claims 1, 13, and 17. Claim 12 has been cancelled. Currently, claims 1-11 and 13-27 remain pending in the application.

- 2. The text of those sections of Title 35 U.S. Code not included in this action can be found in the prior Office action, Paper No. 20041019.
- 3. The rejection of claims 1-11 and 19-27 under 35 U.S.C. 102(b) as being anticipated by Scheper et al, U.S. Patent No. 6,013,613, is withdrawn in view of applicant's amendments and remarks.
- 4. The rejection of claims 1-11 and 19-27 under 35 U.S.C. 102(b) as being anticipated by Gorlin et al, U.S. Patent No. 5,698,507, is withdrawn in view of applicant's amendments and remarks.
- 5. The rejection of claims 1-11, 19-21 and 25-27 under 35 U.S.C. 102(e) as being anticipated by Kawaguchi et al, U.S. Patent No. 6,680,286, is withdrawn in view of applicant's amendments and remarks.

Application/Control Number: 10/763,086 Page 3

Art Unit: 1751

6. The rejection of claims 12-18 under 35 U.S.C. 103(a) as being unpatentable over Kawaguchi et al, U.S. Patent No. 6,680,286, is withdrawn in view of applicant's amendments and remarks.

- 7. The provisional rejection of claims 1-11 and 13-27 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-28 of copending Application No. 10/764,232 is maintained for the reasons of record.
- 8. The provisional rejection of claims 1-11 and 13-27 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-24 of copending Application No. 10/763,776 is maintained for the reasons of record.

Response to Arguments

9. Applicant's arguments filed March 23, 2005 have been fully considered but they are not persuasive.

Applicant argues that copending Application Nos. 10/764,232 and 10/763,776 do not disclose or suggest the claimed diffusion coefficient limitation required in the instant claims. However, the examiner asserts that the nonionic surfactants disclosed in both copending Application Nos. 10/764,232 and 10/763,776 would inherently meet the diffusion coefficient requirement. Specifically, both copending Application Nos. 10/764,232 and 10/763,776 require the exact same nonionic surfactant required in the instant claims, and therefore, the examiner asserts that this diffusion coefficient property

Art Unit: 1751

would inherently be met by the nonionic surfactants claimed in both copending Application Nos. 10/764,232 and 10/763,776.

Conclusion '

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian Mruk whose telephone number is (571) 272-1321. The examiner can normally be reached on Monday-Thursday from 7:00 AM to 5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta, can be reached on (571) 272-1316. The fax phone
